

Please be our guest at our annual
MARKET OUTLOOK
SEMINAR FINANCIAL
STRATEGIES 2010

THURSDAY MARCH 18, 2010 ~ 5:30 PM registration
6:00 PM presentation

Our Passion.Your Prosperity

ONWARDS AND UPWARDS. Your outlook for 2010.

THE EVENT:

Does the next decade hold more of the same: volatile capital markets, asset bubbles and flat equity returns? We know what worked over the last ten years, so how might that change for the next ten years?

ROB EDEL (*Chief Investment Officer*) will review what happened over 2009 and offer his forecast of the economy's direction – is inflation on the horizon?

JOHN NICOLA (*Chairman & CEO*) will delve into: what types of investments worked in the last decade; the role asset allocation played in getting better investment performance; and how these strategies will work going forward.

Q+A: We will conclude with an open forum question and answer period, and invite you to ask John and Rob about the economy, our investments, and any topics brought in advance or inspired by the evening's discussion.

Wine, refreshments, and hors d'oeuvres to be served.
